## Why Renter's Insurance is Important!

Just because your landlord carries insurance on your residence, it doesn't mean that you shouldn't protect your personal belongings and protect yourself against potential lawsuits.

The Farmers Renters policy provides coverage if your property is damaged by vandalism, smoke, fire and many other perils. In addition, if you are displaced by a fire or other covered loss, you will have funds available to provide you with food, clothing and shelter away from the premises until your property can be inhabited again. Please remember that you may not be the one who causes the loss. A neighbor 3 doors down can start a fire and your unit is burned or the unit above yours floods and the water enters your unit. If this person doesn't have insurance or not enough insurance, you could be out of luck. It's expensive to keep paying your rent and try to pay rent elsewhere while your unit is being repaired.

Provided below is a sample policy in San Diego County. It's important to review this with your agent and customize the coverage to your needs.

Contents	\$20,000	Loss of Use (\$ for food, clothing, shelter)	\$4,000
Liability	\$300,000	Guest Medical	\$1,000

\$500 Deductible      Total Annual Premium: \$252.36 (\$21.00 month approx.)

Please keep in mind that you can save additional \$\$ when you package your auto with your renters policy. If you would like a no obligation proposal, please contact me at the number above. We provide superior, personal service. No 1-800 go it alone numbers here!

Warm regards,

Suellen Eichman

For more details on the policy, please see the Renters brochure provided.
